

Diapers

じゃじゃぽぽ

• Gentle on baby's skin • Keeps baby fresh.

Non-Woven Long Fibre Top Sheet

Keeps baby comfortable with its silky-soft cloth-like texture. Unlike conventional diapers made with coiled fibre, **じゃじゃぽぽ** is made with non-woven long fibre so there are no protruding fibre ends that are uncomfortable against baby's skin. The super thin top sheet is also highly-effective in drawing wetness away from baby's bottom to help prevent nappy rash and keep baby feeling fresh.

超柔纖維不織布：絲質觸感的超強吸收層，乾爽不悶滯，使寶寶的嬌嫩肌膚遠離尿布疹。

Double Protection Against Side Leakage

With double standing side leak guard. The double standing guard acts as a barrier to prevent the leakage of urine and loose stools.

全新立體防漏側邊：符合人體工學設計，不產生O型腿，且不讓軟便、尿液外漏。

Unique 3-Zone Ventilation System

Ventilation channels, located at the outer cover, waist and sides of the diaper, let warm air flow out quickly while allowing the inflow of cool air to keep baby's bottom cool.

透氣乾爽功能：透氣表層及側邊，能迅速散發熱氣，讓涼爽空氣流入。

Wetness Indicator

Helps you keep baby dry and comfortable. You can tell that it is time to change baby's diaper when the **じゃじゃぽぽ** characters disappear. An over-soiled diaper may cause nappy rash.

獨特尿濕顯示功能：可知道何時該更換尿布。
